1995 - THE YEAR REVIEWED IN PICTURES.

With appologies for being a little late due to the maddness of the holiday season, this is the New Year's edition of the club newsletter. This month, highlights of the major events of 1995. We hope you like it and if you have any comments, please let me know. The normal methods to the maddness will continue next month. Here presented, a few of the people, places and things that are about, a part of our hobby. Sorry to those who may have expected to see themselves, but some pictures came out ok, some very good, and a few were just not useable. If there is a good photo bug out there, we have a job for you with good benifits. So, enjoy and from myself and Matt, here's to a great 1996 to you.
